DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 3, 4, and 6 are rejected under 35 U.S.C. 102(e) as being anticipated by Odman et al. (US 2003/0137966).

Regarding claims 1 and 4, Odman discloses the method for use by a first node in an ad-hoc Wireless Local Area Network (WLAN) which first node maintains a table of other nodes within the network which can be used for forwarding messages within the network, said method comprising: [Paragraph 0008 and 0009]

receiving a first signal from a second node,

analyzing the first signal to determine its signal-to-noise ratio (SNR), determining if the second node is a member of a good neighbor group of nodes having met a predetermined signal-to-noise ratio (SNR) requirement and is already listed in the table maintained by the first node, [Paragraph 0089-92]

if the second node is a member of the good neighbor group of nodes already listed in the table maintained by the first node, comparing the signal-to-noise ratio

(SNR) of the first signal to a first predetermined signal strength signal-to-noise ratio (SNR) threshold, if the signal-to-noise ratio (SNR) of the first signal exceeds the first predetermined signal-to-noise ratio (SNR) threshold, maintaining the second node in the table as a member of the good neighbor group of nodes, and if the signal-to-noise ratio (SNR) of the first signal does not exceed the first predetermined signal-to-noise ratio (SNR) threshold, discarding the first signal, and if the second node is not a member of the good neighbor group of nodes already listed in the table maintained by the first node,

comparing the signal-to-noise ratio (SNR) of the first signal to a second predetermined signal-to-noise ratio (SNR) threshold greater than the first predetermined signal-to-noise ratio (SNR) threshold, [Paragraph 0092]

if the signal-to-noise ratio (SNR) of the first signal exceeds the second predetermined signal strength signal-to-noise ratio (SNR) threshold, adding the second node to the table so that the second node is included as a new member in the good neighbor group of nodes, and [Paragraph 0093]

if the signal strength signal-to-noise ratio (SNR) of the first signal does not exceed the second predetermined signal-to-noise ratio (SNR) threshold, discarding the first signal and continuing to not list the second node in the table.[paragraph 0097-98]

Regarding claims 3 and 6, Odman, specifically paragraph 0008 discloses wherein applied in a system that complies with an IEEE 802.11 standard.

Allowable Subject Matter

3. Claims 2 and 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
